2 WEEKS, 5 WRE

AGUIAR DA BEIRA | LOULÉ | CASCAIS

Welcome to Portugal "O" Meeting 2025

Welcome to Portugal "O" Meeting 2025, the most anticipated orienteering event of the year! This prestigious gathering will take place in the vibrant town of Loulé, nestled in the stunning Algarve region, during the Carnival weekend. Renowned for its rich culture, enchanting landscapes, and welcoming community, Loulé offers the perfect backdrop for this year's competition, promising an unforgettable experience for participants and spectators alike.

Join us as we explore the intricate terrains of the Algarve, where competitors from around the world will test their skills in the art of orienteering. The event coincides with the renowned Loulé Carnival, a spectacular celebration bursting with colorful parades, lively music, and captivating performances. This unique blend of sport and festivity provides an opportunity not only to challenge yourself on some of the most picturesque courses but also to immerse yourself in a carnival atmosphere unlike any other.

Beyond the thrill of the competition, discover the breathtaking beaches that make the Algarve a world-famous destination. From the golden sands of Praia da Falésia to the peaceful waters of Quarteira Beach, the region offers a myriad of seaside escapes perfect for relaxation and adventure. Whether you're navigating the courses or soaking up the sun, the Portugal "O" Meeting in Loulé guarantees an extraordinary journey through culture, nature, and sport. We look forward to welcoming you to our event!

Message from the Event Director

Dear Athletes,

The Portugal "O" Meeting is a pedestrian orienteering event, included in the Ranking of the International Orienteering Federation (IOF) and in the ranking of the Portuguese Cup of the Portuguese Orienteering Federation – FPO.

It is an event open to people of any age, who can participate in competition levels or open classes, individually or in groups.

We invite all Orienteering lovers to participate in this event, wishing them a warm welcome.

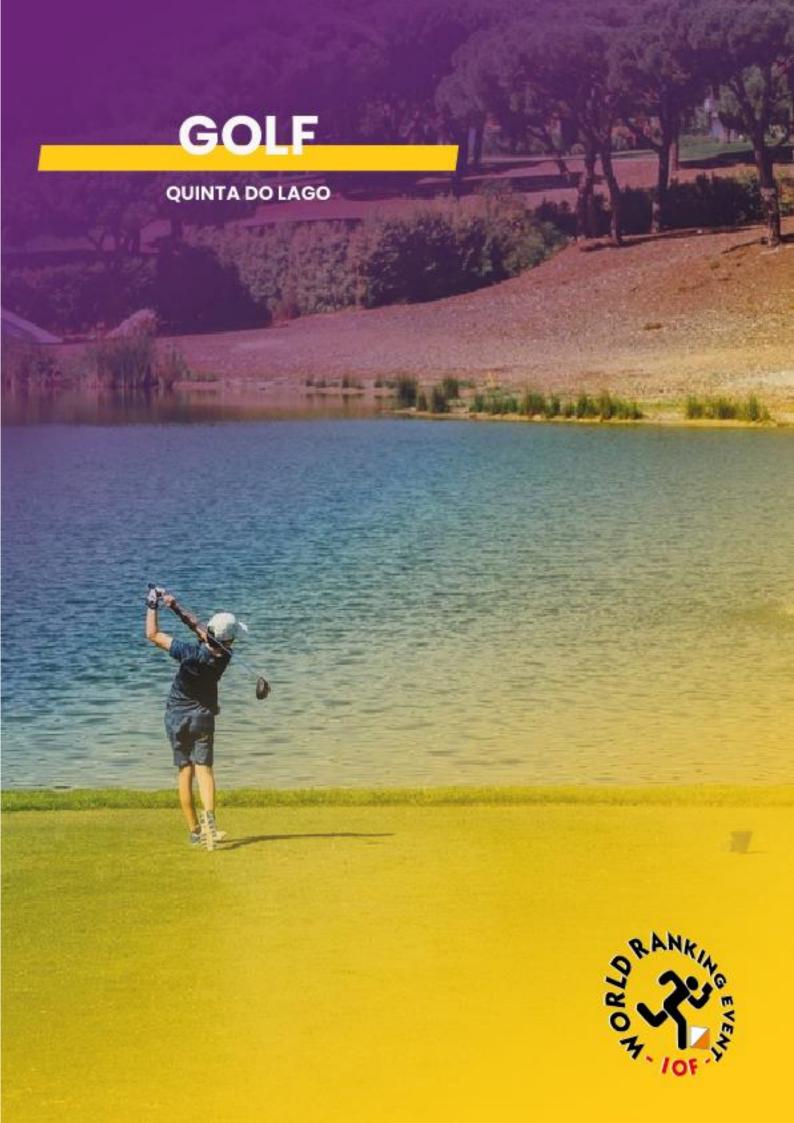

We hope you enjoy your time in Algarve.

During POM, all athletes can enjoy and participate in LOULÉ Carnival.

You will also be able to enjoy the most beautiful beaches in Algarve, in Vilamoura, Quarteira.

There will also be events at the renowned Quinta do Lago.

Hélder Faisca

Message from the Mayor of the Municipality of Loulé

Welcome to the Municipality of Loulé.

Loulé is located in the center of the Algarve and extends from the coast to the mountains. Territory of diverse landscapes, in this land in the south of Portugal, the beauty of nature combines with the typicality of the small villages in the interior and the modernity of its cities.

As President of the City Council, I invite everyone to get to know our municipality, rich in cultural heritage, located throughout the territory. I could not fail to highlight some exlibris, such as the Municipal Market in the city of Loulé, the <u>Islamic Baths</u> and the Casa Senhorial dos Barreto,

the <u>Igreja Matriz de São Clemente</u> with its characteristic bell tower, the <u>Municipal Museum</u>, where you can observe two fossil remains of a phytosaurus and a metoposaurus algarvensis; and the Roman ruins of Cerro da Vila.

The natural heritage is also an unmissable business card of our municipality for lovers of outdoor walks. Because, the municipality of Loulé has part of its surface classified as a protected area, encompassing a great diversity of habitats, rich in fauna and flora, geological heritage and other important resources, such as the Local Natural Reserve of Foz do Almargem and Trafal; part of the Ria Formosa Natural Park; the Local Protected Landscape of Rocha da Pena and the Local Protected Landscape of Fonte da Benémola.

Gastronomy, made with fresh and local products, and handicrafts are also riches of our municipality that will greatly please those who visit us for the first time, as well as our lineup of celebrations and parties that attracts thousands of people to our municipality every year.

Loulé is traditionally a territory that promotes sport, providing excellent conditions for practicing different sports. The quality of its infrastructure allows the municipality to host several national and international sporting competitions throughout the year, in different parts of the territory.

It is with great satisfaction that we welcome another competition in 2025, an international orienteering event: Portugal "O" Meeting (POM), a race that promotes a growing sport all over the world, not only because of its unique sport characteristics outdoors, but also because it is practicable in urban, rural or forestry contexts. In Loulé, orienteers participating in this 2025 edition will find routes of unique beauty and interest.

I end by congratulating the organization of the event, namely the Terra de Loulé MTB Club, which, with the support of the City Council, will, without a doubt, once again project the name of our land across borders.

We wish everyone a good race and hope you enjoy everything that Loulé has to offer.

Vitor Aleixo

QUARTEIRA BEACH

Tourism

Loulé enjoys a very special position in the Algarve region. Its central location and good routes means that this municipality is a touristic destination by excellence.

A visit to Loulé is a must for anyone coming to the region: it is 16km from Faro Internacional Airport, with easy access to the A22 (Via do Infante) motorway and to the motorway that links Algarve to the capital (A2), and just 68km away. from Ayamonte.

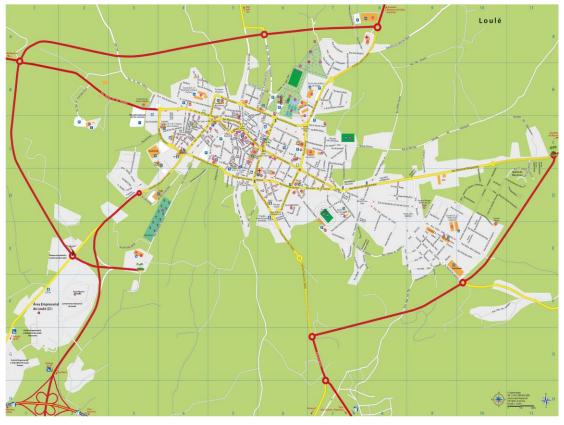

Image 2 - Loulé Map

With an area of about 765km2 and a population of 69.230, the municipality extends over three climatic zones: the coastline, the Serra (the hills) and the Barrocal in between.

There is such an enormous range of touristic resources for visitors to discover.

Loulé has everything from the golden sands of the long, blue-flag beaches, which stretch for 13 km along the coast, to the picturesque villages of the Algarve "serra", from a high-quality architectural heritage to the richness of

the environment and scenery, from the lively nightlife to traditional festivals handed down from generation to generation, and in addition visitors can also make use of 13 excellent golf courses, and an international marina, and enjoy the rich variety of the local cuisine.

You can find out more through the <u>tourism</u> section of the municipality's website.

You can consult the tourist map of Loulé <u>here!</u>

Accommodation

The **Hard Floor** (it's a school sports hall, where you can sleep in your sleeping bag) will be at EB 2,3 Eng. Duarte Pacheco (37°08'29.5"N 8°01'33.7"W).

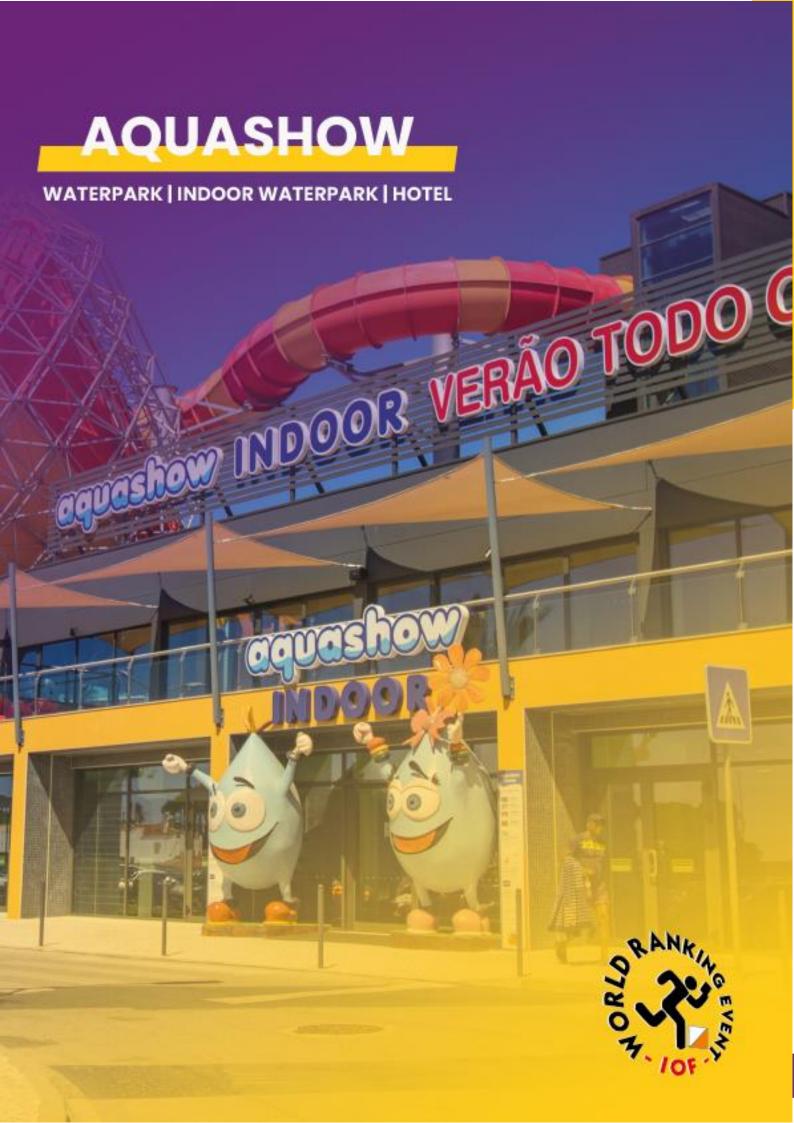

In the parking areas of the arenas, dedicated spaces for **motorhomes** will be available. Additionally, three nearby service stations stand out: Fonte Santa (Quarteira), accommodating up to 100 motorhomes, Salir with space for 40 motorhomes, and São Brás de Alportel, which has a capacity for 68 motorhomes.

Loulé is the main city of the Algarve's largest and most populous municipality. Easy to get to and boasting a prime central location in the region, the municipality is a tourist destination par excellence. Visitors can choose from a huge variety of accommodation that ranges from 5* hotels to rural tourism accommodation, the latter also being extremely popular with tourists visiting the municipality of Loulé.

See the full list of <u>accommodations</u> at section of the municipality's website.

Image 3 - Accommodation

Week Before

The training camps will be a simulation of the Portugal "O" Meeting 2025 competitions.

They will have a timing system with the SPORTIdent Air+ system active and will also have results.

The training camps are middle distance orienteering events, with maps at a scale of 1:10 000 and there will be 3 courses with different degrees of difficulty:

- Green For beginners
- Yellow Medium course with technical difficulty
- Red Medium/Long course with technical difficulty

Each training costs 5€ per person, per day until 31st October. After this day, the cost of each training camp per person, per day will be 7€.

The training camps do not have sports insurance included, unless requested. If requested, the insurance value will be added to the cost of the training camp.

Don't miss this opportunity to extend your POM25 experiences

Entries and Prices

The runners must register their entries using the platform <u>OriOasis</u>. The registration in the Model Event must also be made on the same platform using one extra available field.

In case of doubts or problems with entries, please contact us by the following e-mail: entries@pom.pt

The entries deadline is 15th February 2025.

ELITE CLASSES: During entry process, Elite runners must provide their IOF World Ranking ID. All the athletes in those classes need to be registed in IOF Eventor.

Due to the large number of competitors, this category will be divided into M2ISE (super elite) and M2IE (elite), with the criterion for separation being the World Ranking of the registered athletes, 20 days before the competition.

MODEL EVENT: Don't forget to register for the Model Event.

HARD FLOOR: If you want to use Hard Floor the registration for it is mandatory.

SOUVENIR: All athletes will receive an event t-shirt.

Prizes

At **POM 2025**, the prizes will be replicas of the traditional **Algarvian chimneys**, celebrating not only athletic achievement but also the region's rich heritage. These chimneys are iconic symbols of Algarve's traditional architecture, inspired by Moorish art, featuring intricate limestone designs that blend functionality with aesthetics. Once a sign of social status, each chimney is unique, reflecting the region's cultural creativity.

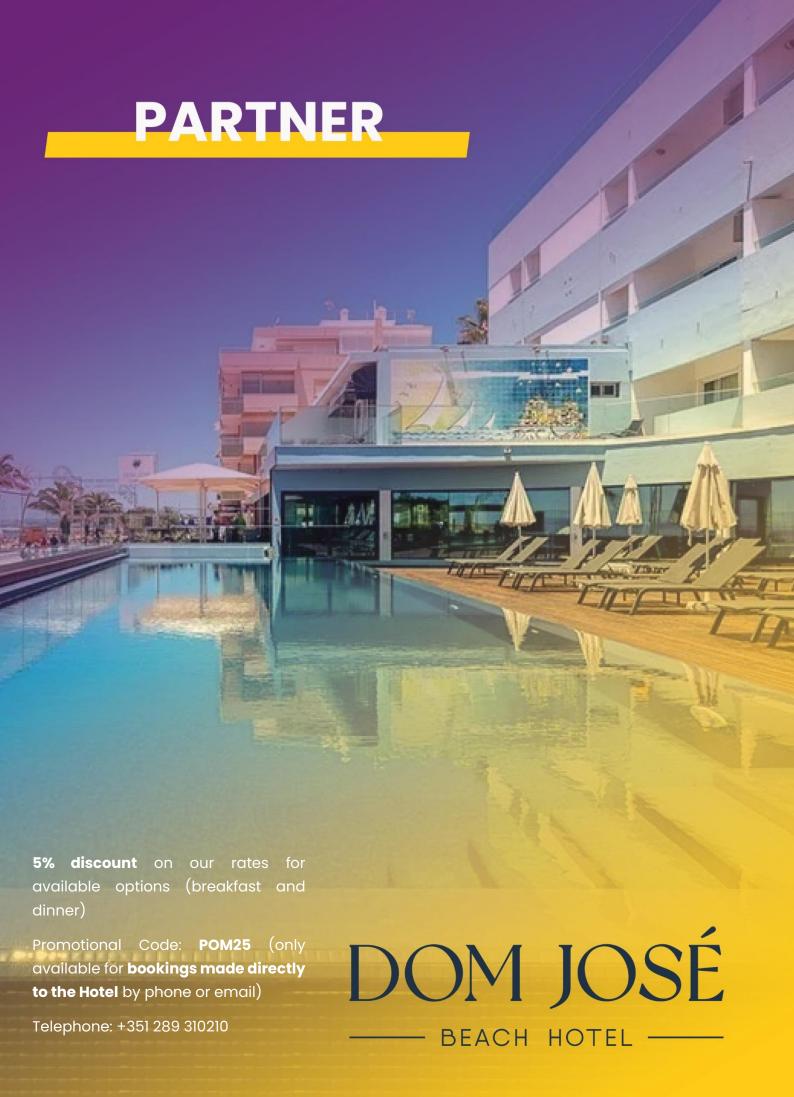

Athletes to be awarded:

- **POM Overall:** Top 3 in each class, top 3 clubs, and top 5 in M21E, M21SE, W21E. All W/M10 & W/M12 participants receive a special gift.
- WRE: Top 5 in W21E & M21SE.
- **Night Sprints:** Prizes for the top 3 classified in each category in the sum of the two sprints.
- **PreO:** Top 3 per class.

Athletes will take home a trophy with history and identity!

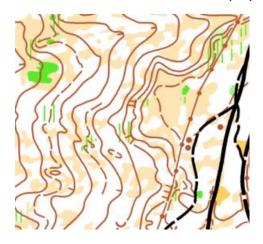

Image 7 - Replicas of the traditional Algarvian chimneys

Day 1 - Middle Distance

Map: Ludo

Terrain: is characterized by stone pine forests, Mediterranean scrub with rockrose and strawberry trees, and riparian vegetation near the Ria Formosa, where salt marshes and halophytic plants stand out.

Day 2 - Night Sprint

Map: Quarteira

Terrain: The map highlights a richly detailed urban area, with narrow streets, residential zones, and some open spaces that promise speed and agility. The terrain is perfect for a fast and dynamic sprint, but be careful! Map reading will be crucial to avoid mistakes that could cost you precious seconds.

Quarteira, with its vibrant nighttime atmosphere, will test your concentration and adaptability, offering a course as beautiful as it is technical.

Map maker: Alexandre Reis

Course setter: Alexandre Reis

Distance to Start: 0 mts

Water supply: No

Spectator control: No

Equidistance: 2,5 mts

Parking: In the places indicated by Organization

Additional information: Runners must use a head-lamp.

Programme

17h30 Opening of the Secretariat

19h00 Night sprint start

19h30 Start of the open and training classes

21h30 Secretariat closes

Day 3 - Middle Distance

Map: Loulé

Terrain: Area of Mediterranean forest with medium relief and many details of vegetation and linear elements such as loose stone walls, mostly in ruins.

Map maker: Alexandre Reis (Portugal)

Course setter: Alexandre Reis

Distance to Start: 1100 mts

Water supply: No

Spectator control: No

Equidistance: 5 mts

Parking: At the Arena, at the location indicated by the Organisers.

Additional information:

- Babysitting Location (37°08'23.3"N 8°01'47.3"W).
- There will be bar service
- Arena scheme see page 46
- The use of GPS watches with map information will not be permitted in the Elite classes during this race.

Programme

08h00 Opening of the Secretariat – Arena

10h00 Middle Distance Start – WRE

10h30 Start of the open and training classes

14h00 Night Sprint Prize-giving Ceremony

14h30 Closing of the secretariat in the arena

15h00 Prize-giving ceremony – **WRE**

Day 3 - PRE-O

Map: Quarteira

Terrain: Dune terrain with some detail. Mostly open area with bushes and some trees. The challenges posed to participants mainly require reading the map and interpreting the terrain.

Map maker: Alexandre Reis

Course setter: Jorge Baltazar

Additional information:

- This stage is a PRE-O SPRINT, a timing system will be used. The use of SPORTident is mandatory.
- The PreO Sprint is limited to 150 participants.
- Control observation points are numbered sequentially along the route.
- To define the route to be taken, traffic cones will be placed in the areas marked on the map as closed crossings.
- 100% paved route.
- The organization does not provide helpers for participants using manual wheelchairs.
- There will be supply (water) at the end of the route.
- Complaints
 - Location Secretariat
 - o Timeout
 - Technical problems 15 minutes after finishing the route
 - Classification errors 15 minutes after fixing the provisional results

- A challenge A is resolved by answering "A" (Alpha), if the beacon is correctly positioned on the ground, in the center of the control circle on the map) or "Z" (zero), if the beacon is poorly positioned.
- The competition is governed by the IOF specifications and guidelines for elite TrailO PreO Sprint competitions and the FPO Trail-O competition regulations.
- In the Map Example:
 - The low fences represented are dune palisades, which are sometimes a slightly lower than the norm. In some places, for readability reasons, the the oblique line was omitted.
 - o Special objects "O" are street lamps.

Courses					
Classe	Distance	Climb	Controls	Máx.Time	
Open	300 m	2 m	20	30 min	
Phisicaly Chalenged (Standing and electric wheelchair)	300 m	2 m	20	35 min	
Phisicaly Chalenged (Manual wheelchair)	300 m	2 m	20	39 min	

1. The profile

PreO Sprint combines precision with high-speed decision making. It tests the athletes' ability to read and interpret the map in complex terrain and make accurate decisions quickly. The total distance of the PreO Sprint course is to be kept as short as possible and it should only be possible for the best competitors to solve all problems correctly within the maximal allowed time. A terrain that cannot provide this challenge is not appropriate for the PreO Sprint. Therefore, urban areas and parks that are suitable for TempO competi-tions might not be appropriate to use for a PreO Sprint.

2. The course

Courses shall have a minimum of 20 controls. There should be only A/Z tasks that can be solved in free order. Exactly one flag is placed in the terrain for each task, either at the position at the centre of the control circle (answer A) or at least 4 m (8 m for controls on large area and long line features or more than 50 m from the viewing point) away from the correct location (answer Z) in line with IOF Guidelines for Zero tasks.

The maximal allowed time shall be 30 minutes or less (for the Open class); it is calculated as 1 minute per 30 m plus 1 minute per control. The total course distance (i.e. from start to finish and passing all decision points) must not exceed 15 m per control. Therefore, a typical PreO Sprint course would have 25 controls along a trail of 150 m length. However, if required, the course can be split into two or three sections with a timed-out section in-between. Separate maps to be handed out at the beginning of each section. The total distance including timed-out sections should be kept below 1 km.

The course should be on a flat track or area, ideally with a hard smooth surface, with a minimal width of 2.5m to permit wheelchairs passing. Timedout sections should be used to allow wheelchair users to navi-gate through non-flat sections of the course and to connect different parts of the area with interesting fea-tures with minimal competition distance.

Visibility of the area should be good to limit clustering of competitors at viewing points. While flags should be positioned so that they can be viewed from different positions along the track, viewing points should be marked in the terrain in numerical order along the path to indicate a position from where the competitor has very clear visibility of a particular control flag – additional flags can be visible from these points. Viewing points should clearly indicate the control number(s). To avoid congestion, each control should have its own viewing point and the minimum distance between viewing points should be 3 m. For fairness to competitors with limited mobility, it is recommended to place the viewing point so that the task can be solved from this position and no significant advantage can be gained by moving beyond the next decision point on the track.

3. Classification

Classification by total points (one point for each correctly solved control) minus a penalty of 1 point for each 1 min or fraction used past the maximum allowed time. Total time used on the course (minus timed-out sections) will be used as a tiebreaker.

A handicap system to adjust time used based on ground conditions and for manual wheelchair users who cannot use the map while moving will improve direct comparison between all competitors. As a guideline, for wheelchair users multiply total time by 0.8, and other competitors with P class eligibility, multiply total time by 0.9. If handicaps are used, the maximum allowed course time for P class competitors should be adjusted accordingly, so that the maximum time after adjustment is the same for all competitors. For exam-ple, if the multiplier is 0.8 and the maximum time for the Open class is 28 minutes, the maximum time for the P class should be 35 minutes. The penalty of 1 point per minute (or part of a minute) over maximum time applies for all classes and is not adjusted by any handicap factors used.

More info at: IOF website

Programme

13:00 Pre-O Event Center opens

13:30 Pre-O starts

17:30 Pre-O Prize-giving Ceremony

Day 4 - Long Distance & Chasing Start

Map: Loulé

Terrain: Area of Mediterranean forest with medium relief and many details of vegetation and linear elements such as loose stone walls, mostly in ruins.

Map maker: Alexandre Reis

Course setter: Alexandre Reis

Distance to Start: 0 mts

Water supply: Yes

Spectator control: No

Equidistance: 5 mts

Parking: At the Arena, at the location indicated by the Organisers.

Additional information:

- Babysitting Location (37°08'23.3"N 8°01'47.3"W)
- There will be bar service
- Arena scheme see page 46
- All the Elite classes (M21SE, M21E and W21E) will have a Chasing Start close to the Arena;
- Athletes who are more than one hour after the first or didn't run one of the forest stages will have a mass start one hour after the first start

Programme

08h00 Opening of the Secretariat – Arena

09h00 Long distance (chasing start for Elite classes in the arena)

09h30 Start for open and training classes

10h00 Mass start for the remaining elite athletes in the arena

13h30 Prize-giving ceremony – POM2025

15h00 Secretariat closes

17h00 Closing of the Hard Floor
